PACIFIC
CONSTRUCTION

Building Your Future

Restoring Your Past

About Us

As a commercial general contracting firm, Pacific Construction commits to fulfilling our clients' construction vision. Our estimating team has over 25 years of experience in the construction industry. No bid is too big or too small. Our estimators have experience ranging from commercial, residential, industrial, medical and hospitality. We have worked with clients to value engineer projects to deliver projects within their budgets and meet expectations.

Our field team prides itself on its ability to complete various construction tasks in-house. Our crews have experience ranging from demo work to finishes. We perform all metal stud framing and drywall work in-house, with crews of experienced framers, hangers and finishers. Our team can install doors, frames, hardware, FRP, paint, fixtures, acoustical ceiling systems, restroom accessories, concrete repair, setting cabinets and countertops.

We look forward to building your next project.

We Build With You

Pacific Construction prides itself on being capable of managing a wide variety of commercial construction types and services to better serve our clients from pre-construction to project closeout.

Our Clients' Vision Matters

Our Story

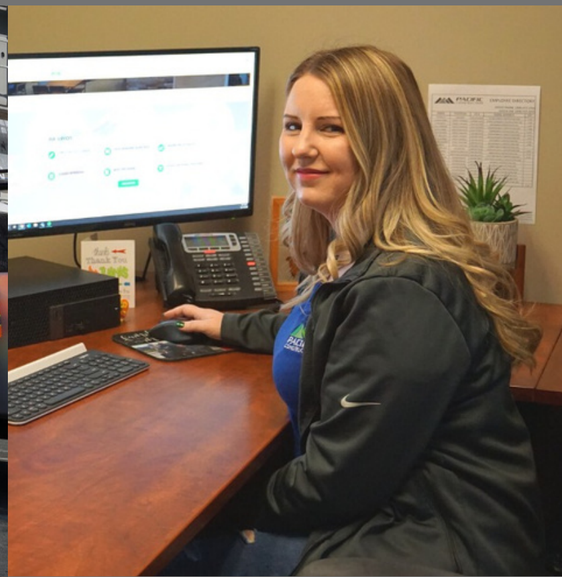
Pacific Construction is a general contracting firm that was founded on the principles of integrity, professionalism, efficiency, and value; cornerstone qualities of successful construction projects. With over 20 years of experience in the construction industry, Wilson Yu founded Pacific Construction in 2010 with the goal of providing Northern California with the highest quality construction management services.

Over the past decade, Pacific Construction's portfolio and experience has grown to span a wide range of commercial construction methods and types; from tenant improvements to ground-ups, medical to automotive, and industrial to retail. We are truly grateful to our loyal clientele; investors, businesses, developers, and owner/builders that allow us the opportunity to assist them in realizing their construction goals throughout California, Washington, and Nevada.

Wilson Yu, President

Company Culture

We believe that each team member plays a pivotal role in the success of Pacific Construction. Our goal as a company is to cultivate lasting relationships, encourage, and treat each team member with the utmost respect. Which in turn, ensures our clients are well taken of as we strive to exceed all expectations.



Our Mission

Pacific Construction will strive daily to exceed our clients' expectations through unrivaled customer service and expertise when designing, managing, and building the highest quality construction projects in the Western United States.

Our Vision

Pacific Construction will foster an environment that will advance and develop its employees to their fullest potential; in turn, creating a company philosophy of unmatched determination for expansion and improvement to fulfill any needs of our loyal and ever-growing client base.

Our Values

Pacific Construction’s clientele and their dreams are the focus of our company. The vital link between our clients’ vision and Pacific Construction are our employees. Integrity, professionalism, quality, efficiency, value, safety, hard work, communication, and innovation are the founding principles of Pacific Construction and what each employee will incorporate into their everyday work.

Safety First

At Pacific Construction we always believe in safety first. Our team is continuously educated on proper safety techniques, medical emergency procedures and follow OSHA guidelines and standards to the fullest.

In order to protect our valued clients, sub-contractors, and team during these trying times, we also enforce and follow the latest health guidelines to ensure we are practicing safe protocols during the COVID-19 pandemic.
